

## **Statement of Policy and Authority**

Nuclear Power Corporation of India Limited realises its Vision, Mission and Objectives by adhering to the Core Values of the Organisation and to the following statements of policy.

- Build and operate Nuclear Power Plants, in commercially competitive manner with the motto of 'Safety First', by adopting Management System in various phases viz. Siting, Design & Development, Procurement, Manufacturing, Construction, Commissioning, Operation and Decommissioning, giving overriding priority to Nuclear Safety.
- Carryout all the activities of nuclear power programme without any adverse effect on environment, flora and fauna.
- Develop and establish a documented Corporate Management System and continually improve its effectiveness, addressing the requirements of Atomic Energy Regulatory Board and also meeting the intent of the prevalent national and international standards and practices.
- Enforce quality & safety in all phases of the plant(s) by creating appropriate organizational structure, and providing resources with requisite delegation of authority.
- Support Research and Development for continual improvement of plant performance and nuclear safety.
- Develop and enhance competence of its personnel.
- Strive to integrate the people in the surroundings of nuclear power plants through neighbourhood development programme.
- Create awareness on nuclear power and associated aspects among the public.
- Effectiveness of overall implementation of the Management System is monitored and is entrusted to the Head of Quality Assurance Directorate.
