Transportation of the 1<sup>st</sup> End Shield to RAPP-7 has been completed after traveling 808 KM from M/s L&T Hazira to RAPP 7&8 site on 30<sup>th</sup> Sept 2014 in 60 days that too under heavy rainy season and roads at many places in badly damaged condition. For the first time, an innovative rotating hydraulically operated fixture has been used to clear the various hurdles on the way to appreciably shorten the transportation time.
