

**Report on Public Awareness Programme at "Government Polytechnic,
Bhavnagar" on 12.02.2014**

A presentation on Nuclear Energy was arranged at "Government Polytechnic, Bhavnagar " under public awareness programme. Government Polytechnic, Bhavnagar is about 65 years old institute having student strength of about 2700. The Polytechnic runs courses in Mechanical, Civil, Electrical, Chemical, Fabrication Technology, etc

About 225 students of final year from Mechanical and Electrical stream attended the programme. Banners mounted on standies were exhibited and explained to them. Cartoon Movies "Ek Hato Mansukh - Part-1" in Gujarati language was screened. A Powerpoint presentation in Gujarati language about Nuclear Power describing need of electricity, depleting natural resources, increasing pollution, global warming and its effects, Nuclear Power Technology, radiation, etc were explained to them. Infosheet booklets were distributed to the students. Kits containing full set of booklets were given to teaching staff. Working model of NPP was explained to them.

Very good questions were asked by students and faculties and were replied to them. The program was appreciated by Principal, lecturers and students stating that it was very informative one. The faculties requested us to arrange a presentation to all the departments of the institute and we have assured them for the same.

Photographs are placed below.
