

**Report on Public Awareness Programme at "Majiraj Girls High School,
Bhavnagar" on 10.01.2014**

A presentation on Nuclear Energy was scheduled at "Majiraj Girls High School" under public awareness programme. Majiraj Girls High School is a 125 years old Government school situated in Bhavnagar city having student strength of more than 1000 students.

About 150 students from class 11&12 (Science, Commerce and Arts) attended the programme. Banners mounted on standies were exhibited and explained to them. Cartoon Movies "Ek Hato Mansukh - Part-1" in Gujarati language was screened. A Powerpoint presentation in Gujarati language about Nuclear Power describing need of electricity, depleting natural resources, increasing pollution, global warming and its effects, Nuclear Power Technology, radiation, etc were explained to them. Infosheet booklets were distributed to the students. Kits containing full set of booklets were given to teaching staff.

Few questions were asked by students and were replied to their satisfaction. The program was appreciated by the Principal stating that it was very informative.

Photographs are placed below.
