

Public Awareness Report

Rawatbhata Rajasthan Site

To disseminate the information that nuclear power is safe & eco-friendly, RR Site is continuously organizing public awareness programs among the different cross section of public. In this series nine public awareness programs organized for students, government officials and general public during 1st - 15th July, 2015 at RR Site and covered about 250 persons. Doubts also cleared about NPP and radiation through these programs.

Information disseminated through lectures, models, simulator, public awareness movies, plant visit and literatures.

Sh. D Chanda, TS, RR Site addressed and briefed about clean source of nuclear energy, three stage nuclear power program and its bright future to the engineering students & government officials at RR Site.
