Visit of Air force personnel to Narora Atomic Power Station

A group of 24 personnel from Indian Air Force visited Narora Atomic Power Station on 26th August 2015. The team arrived at NAPS helipad by M-17 chopper at 10:20 hrs and was headed by commanding officer. The team had extensive interaction with training officers of STC, NAPS wherein lot of doubts were cleared. The questions covered varied topics viz. safety features in nuclear power plant, type of reactors being used in India, about nuclear waste, hazards from nuclear power station, what went wrong in fukushima..etc.

All the personnel also visited the STC information hall and took keen interest in the models kept there. It was very thrilling for them to hold a fresh fuel bundle in their own hand. Visitors were later shown the main control room and the turbine hall. Finally visitors had lunch in canteen and then proceeded back to Delhi via chopper at 14:40 hrs.
