Sr. No.	Description of Item	Cost (Rs. in Lakhs)	Name of the Agency	Contract Period	Reason for nomination	Approving Authority	UNIT
2	Name of the Work:	Estimated Cost:	M/s MGR Fabricators Private Limited	05 (Five) Months	Completion of above these modifications are the pre-requisite for Hot conditioning of RAPP-7 which is a major mile stone activity of reactor plant, planned in March-2023. As ENCs for modification of FHIC are received at site recently and have to be completed in shortest possible time. These modifications are a massive work involving NPCIL clearances /approval at each stage of work & to be executed in a congested space and to be completed in shortest possible time in order to maintain the schedule of Hot conditions of RAPP-7. At present, the available time for public tendering process is not enough and also a new party for execution of such type of work will need considerable time for site mobilisation & arranging skilled & experienced manpower and qualified supervisory staff as work has to be carried out in a very congested space and where lot of critical equipment / system are already in place. Since modification work of RAPP-7 is to be commenced at earliest, so agency should be finalised in shortest possible time therefore it is prudent to execute the work through already established party at site, who are carrying out similar nature of work and having good track record of delivering the things in safe manner & maintain the quality of work and satisfactory work performances.	Project Director, Unit-7&8, RR Site	RR Site
	Handling, Transportation, Fabrication, in-situ modification, fixing at location, alignment, Welding, NDT inspection, including supply of material for installation of Feeder Header Insulation Cabinet (except lower rear face) of both FM vault of RAPP#7&8.	250.08			In view of above it is proposed to invite bid from M/s MGR Fabricators private Ltd. Delhi who is already established well at RAPP-7&8 site and executing the FM vault structural beam modification work of RAPP-7. The proposed work is also to be executed in the same location so they can synchronise the proposed work with their ongoing work in FM vault area and interface / coordination issue will not be there.M/s MGR fabricators Private Ltd is fully conversant with the activities involved to execute the proposed work & in a position to start the work immediately on award without disturbing their ongoing works at site M/s MGR Fabricators Private Ltd is technically competent & having enough resources and financially capable to execute the proposed modification work of FHIC in line with our schedule without affecting their ongoing works.		
	Tender / Quotation No:	Value of work awarded:	Starting Date:		M/s MGR fabricators Private Ltd have executed many work of critical nature of NPCIL and delivered the thing in safe manner maintain quality of work and time schedule.
