

No. RAPS-3&4/SD/2017/ 120

April 29, 2017

Sub. : Major Achievements, Significant Developments & Important Events of RAPS-3&4 for the month of April' 2017.

Ref. : Letter No. NPCIL/CP&CC/2016/M/77 dtd. July 25, 2016.

With reference to above mentioned letter, the **Major Achievements, Significant Developments & Important Events of RAPS-3&4** for the month of April' 2017 are given below:-

RAPS-3

- RAPS-3 achieved an Availability Factor of 100% (projected) and Capacity Factor of 97.53% (projected).

RAPS-4

- RAPS-4 achieved an Availability Factor of 100% (projected) and Capacity Factor of 98.78% (projected).

Note:

1. Authorized Power of RAPS-3 is restricted to 95% FP as 08 no. of its Coolant Channels are in Wet Quarantined state.
2. Throughout the month RAPS-4 operated at 97% FP. Reactor power was lowered on 27/03/2017 to facilitate refueling of some central core channels as they could not be refueled at 100% FP due to restriction from bundle power.
3. Projected generation has been considered for 29th & 30th April.
